	9	785	09/11/12	N/A	N/A	N/A

*Scale for bar chart is based on highest Lexile® growth within selected time period.

Using This Report

Purpose: To identify the growth each student is making, check the dates of the two tests for an individual student. On average, students are expected to grow approximately 75-100 Lexiles per year.

Follow-Up: Provide opportunities to challenge students who show significant progress. Provide appropriate levels of intervention and support to students who are showing little growth. If zero or negative Lexile growth is recorded, check to see if students' test experience is problematic in some way and retest accordingly.
